

APEX GROUP

Investing in the future

About us

Apex Group was founded in 2012 and is an integrated infrastructure enterprise that focuses on investment, manufacturing, and construction. The company has established three headquarters in Singapore, Germany, and China, respectively managing business in the Asia Pacific, Europe, and China markets. Our long-term strategic goal is to integrate global supply chains and funding to create more value for our customers around the world.

Business segments

Supply Chain Finance

Optimizing industry operations through resource integration and efficient management in procurement, sales, and risk control.

Infrastructure

Partnering with governments in infrastructure projects using BT, BOT, TOT, EPC, and PPP models to enhance public assets.

New Energy Investment

Investing in renewable energies like wind, solar, and electric vehicles, aiming for a sustainable and efficient energy future.

Global Manufacturing

Fully utilize Germany's research and development capabilities, layout the global production and manufacturing capabilities of the photovoltaic industry chain, especially local manufacturing in Europe

APEX SOLAR

Apex Solar is a company under the Apex Group responsible for investing in renewable energy

Corporate mission: By optimizing the supply chain, continuously reducing the cost of new energy, promoting the development of the new energy industry, and benefiting more people and businesses.

Investment in new energy power pv
plants exceeding **500MW**

01

Construction of new energy power
pv stations exceeding **2.5GW**

02

In 2023, the operating revenue
exceeded **150 million euros**

05

**Company
Data**

Manage new energy power pv
plants exceeding **1.5GW**

03

Investing in wind power exceeding
50MW

04

Overseas layout

 More than 12 subsidiaries

What can we do for you

01

A one-stop solution for photovoltaic power stations in all scenarios

02

Business Model: We provide customers with complete solutions and offer free installation opportunities to installers

Pv brackets

TUV certified cables

Tire1 inverter

Solar modules

Advance funding EPC

Solar modules

TUV certified cables

Investment

Solutions for industrial and commercial energy storage

Flexible configuration of industrial and commercial solutions for 100KWH-2.5MWH

Intelligent control of EMC+PCS+BMS

From battery cells to integration, we will always have the entire industry chain, with the best cost

What we do:

1

We are a fully localized company

2

The client's source to the Chinese supply chain and have direct contact

3

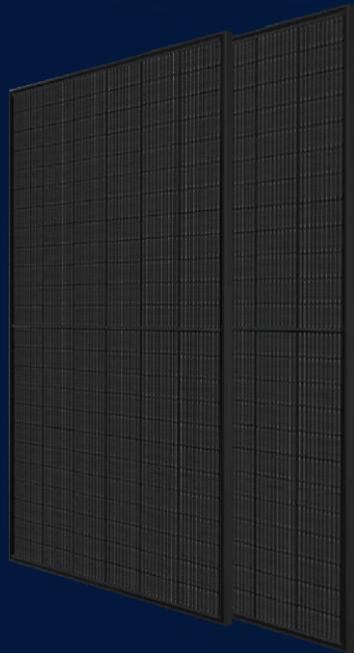

We guarantee localized quality assurance and services

4

We hope to work together with you to promote the development of the renewable energy industry

Supply Chain Catalog

440W-445W

550W-590W

660W-700W

Supply Chain Catalog-Inverter

01

3kw-30w

Residential: String/Hybrid

02

30kw-110kw

C&I: String

03

250kw-350w

Ground: String

Bellow Cable

Smart Meter

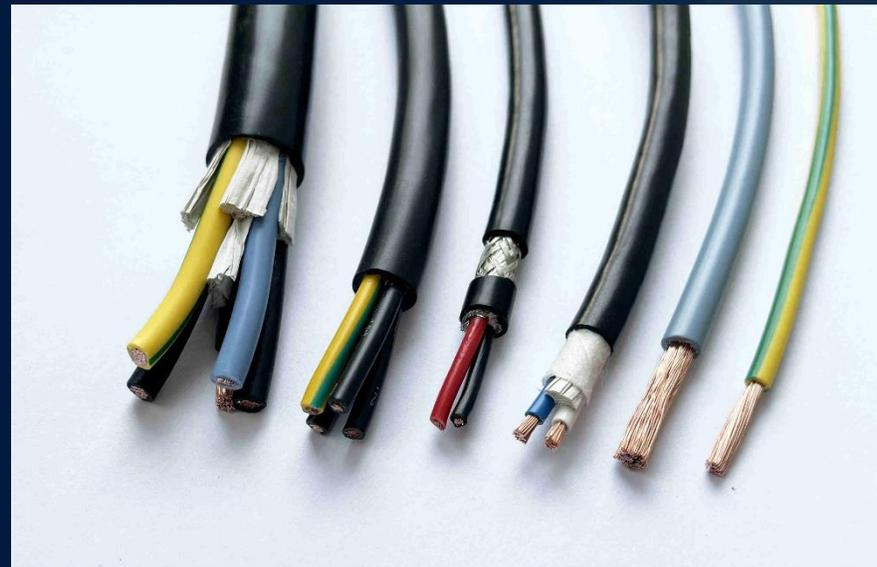

Plastic Rail

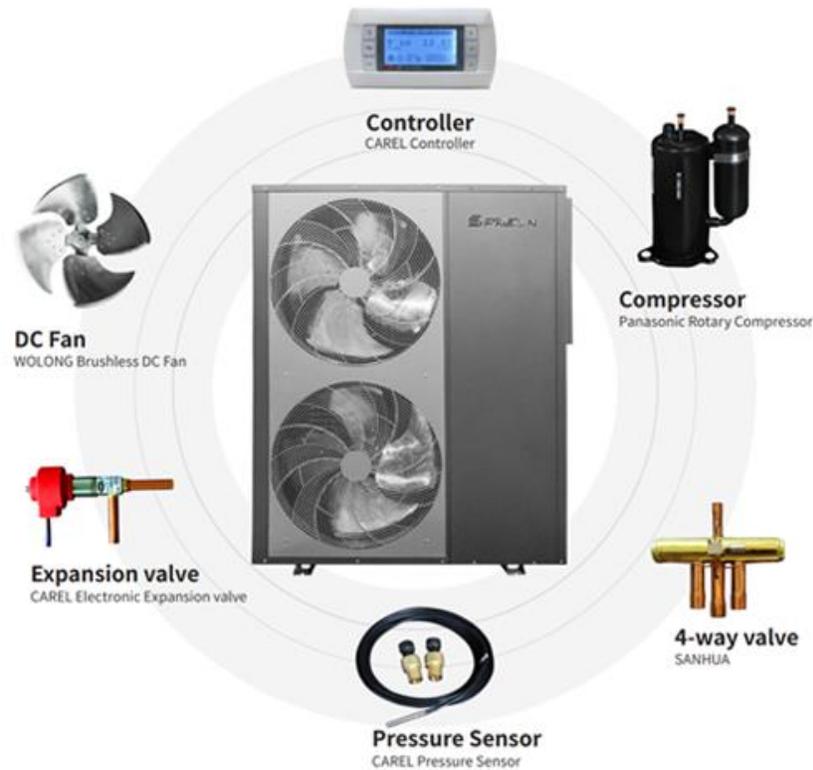

DC: 4mm²-6mm²

AC: According to customer requirements

Ground: 16mm²

Heat Pumb: R32 6kw-29kw

Energy storage: 100kwh-2.5mwh Per Unit

Customize according to customer project requirements

Supply Chain Catalog- Transformer

Main products Series

750kV Oil-immersed Transformer

500kV Oil-immersed Transformer

420kV/330kV Oil-immersed Transformer

220kV Oil-immersed Transformer

110kV Oil-immersed Transformer

400kV Oil-immersed Shunt Reactor

220kV Oil-immersed Traction Transformer

10-35kV Oil-immersed Transformer

Product Ranges

Power Transformers

- Oil-immersed up to 1000kV
- Dry-type up to 35kV
- Pad-mounted Transformers up to 35kV

Reactors

up to 1000kV

Special Transformers: Traction/Furnace/Rectifying

If you need detailed technical data sheets for each material, please contact us.
